Contents

1	Level 1: Build a network and test its connectivity	1
1.1	Network Topology	1
1.2	Connectivity Tests	2
2	Level 2: Generate and analyse traffic on your network	3
3	Level 3: Network attacks	4
4	Level 4: Network defence	5
5	Level 5: Critical evaluation and reflection	6

Chapter 1

Level 1: Build a network and test its connectivity

1.1 Network Topology

Figure 1.1: Network Topology

1.2 Connectivity Tests

The following screenshots show ICMP ping tests between each machine, showing that the machines are fully connected as shown in Figure 1.1.

Chapter 2

Level 2: Generate and analyse traffic on your network

Chapter 3

Level 3: Network attacks

Chapter 4

Level 4: Network defence

Chapter 5

Level 5: Critical evaluation and reflection
